

### NOTE it.

Write down the current day's assignments and due dates for every subject. Keep forgetting? There's a place for parent/teacher messages and sign-off, too.

### FIND it. THE KEY!

Put the current day's homework in the "TO DO" pocket in the back. When it's finished, put it in the "TURN IN" pocket in the front.

### FILE it.

File anything that isn't homework by subject in the matching color-coded folders (things like notes, handouts and graded work).

### TOTE it.

Keep it all in the bag and carry it with you so it's easy to stick to the system.

### CUSTOMIZE it

Label folders and tabs by subject, in the order of your classes. Put your own design in the clear pockets on the planner and the bag. Both fit standard letter-size paper.

## About Us .....

Several years ago my husband and I were faced with the reality that our really smart kid was not doing well in school. He was always in the top 95% on standardized tests, but apparently he couldn't keep track of his homework and rarely turned it in.

We spent hundreds of dollars buying every planner, notebook and filing system out there. We had him work with counselors and teachers before and after school. Then we paid one of those learning centers an absurd amount of money to teach him study and organizational skills.

Nothing worked.

That's when we decided if we wanted our son to succeed in school we better start problem solving on our own because what he needed, simply didn't exist.

We sat down together and started to create a simple system that would work for him. After several months, we hit on the right combination of tools and his grades went from Ds to Bs in one semester — no exaggeration.

Soon other parents and teachers were asking us to make a system for their kids and that's when we realized keeping track of school assignments is really frustrating for a lot of students—and parents.

Teachers, parents and students who participated in the School PLANit trials saw immediate improvements in behavior, test scores, homework, parent participation and yes in overall organization The best thing is that the effects were immediate. Not five, 10 or 15 years down the road.

This patent-pending system really works. It is completely customizable, because no two kids are alike. Each student can develop their own way of tracking their stuff; we just provide the tools to make it possible. Obviously, I love this system. I believe in this system. But in the end it's really just about helping kids succeed.

Sincerely,

Liz @ School PLANit

## The end of lost homework.

.....

Learning the history of the world and the square root of 576 is demanding enough, let alone keeping track of all the paper that comes with it.

The School PLANit system ends nightly frustration by telling you what's due when — and where it is.

Patent Pending

# 1 ▶ Planner

Color-coded class tabs coordinate with folders.

Students can customize the order of classes to match their schedule.

Pages are uncluttered with lots of room to write.

For students who need a bit more assistance, a message area allows parents and teachers to communicate and even initial if necessary.

Clear cover lets students customize their look.

Snap-in bookmark to mark current page.

Clear, easy-to-follow instructions, parent tips and support always available at [www.SchoolPLANit.com](http://www.SchoolPLANit.com)

# 2 ▶ Folders

TO DO and TURN IN pockets keep it simple. All work in transition goes here.

Color-coded folders match each subject in the daily planner.

Included labels let students customize everything to their own schedule.

# 3 ▶ Convertible Tote

Designed and manufactured just for the School PLANit system.

Blue and Dark Red. Have a customizable window so students can change their look... as often as their little hearts desire.

Dark gray. Same great bag design with no customizable window.

Cutaway opening makes items easy to find and access.

Durable weather resistant fabric and hardware.

Two expandable side pockets for water bottles and cell phones.

Straps clip and tuck away to configure the bag three ways.

Moveable and removable dividers.

Mesh pocket holds school supplies — no extra pockets to lose things.

Stays standing on desk, floor or just about anywhere.

All bags are convertible with self storing straps.
